

Light Microscopy Imaging Policies

Confidentiality:

All data obtained through instrumentation in the center will be treated as confidential and will not be used for any presentation or documentation without express consent of the individual users. Likewise, users of the center may not share protocols developed by users of the LMIC without consent from the developers.

Conflict Resolution:

Any conflicts regarding data, billing, fees, or instrumentation usage should be brought to the attention of the facility manager, who will in turn consult with the Director of the LMIC. Should the conflict remain unresolved, mediation of conflicts will be ensured by the Chair of the Advisory Committee, by the full Advisory Committee, and ultimately by the Associate Vice Provost for the Sciences.

The **prioritization** statement is included under equipment use:

Equipment use:

We are a fee for use facility. **All equipment is available equally to all users of the facility. Scheduling is carried out on an on-line sign-up sheet with first-come first served access. Special consideration is given for experiments that need a long set-up period or to experiments that need longer time periods than the standard 4 hr window.**
